**Subject:** UAA Report

I just realized that I'm not going to be able to email this report to you as it is way too big. So I will put it on a CD and send it via USPS unless you wish to pick it up. Please let me know tomorrow AM what you wish me to do.

In the meantime, I have attached a couple of short documents by ARSG that may help with understanding some of their work and the actions taken in Cement Creek at the American Tunnel by Sunnyside Gold Corporation and the WTP that they operated for a period of time till ~ 2004.

You might also check out the ARSG web page but I would caution that their organization of

studies and data are not as complete as governmental databases and reports.
